

MOSFET

OptiMOS™ 5 Power-Transistor, 30 V

Features

- N-channel, logic level
- Very low on-resistance R_{DS(on)}
- Superior thermal resistance
- Optimized design for double side cooling
- 100% avalanche tested
- Pb-free lead plating; RoHS compliant
- Halogen-free according to IEC61249-2-21

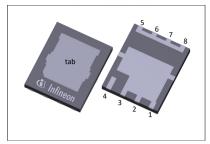

Product validation

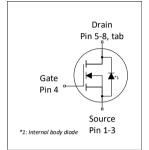

Fully qualified according to JEDEC for Industrial Applications

Table 1 **Key Performance Parameters**

Parameter	Value	Unit
$V_{ m DS}$	30	V
R _{DS(on),max}	0.35	mΩ
I_{D}	700	А
$Q_{\rm oss}$	95	nC
Q_{G}	91	nC

Information

For further information on technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies Office (www. infineon.com).

Warnings

Due to technical requirements, components may contain dangerous substances. For information on the types in question, please contact the nearest Infineon Technologies Office.

The Infineon Technologies component described in this Data Sheet may be used in life-support devices or systems and/or automotive, aviation and aerospace applications or systems only with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support, automotive, aviation and aerospace device or system or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body or to support and/or maintain and sustain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.
