

MOSFET

OptiMOS[™] 6 Power-Transistor, 200 V

Features

- N-channel, normal level
- Very low on-resistance R_{DS(on)}
- Excellent gate charge x R_{DS(on)} product (FOM) Very low reverse recovery charge (Q_{rr})
- · High avalanche energy rating

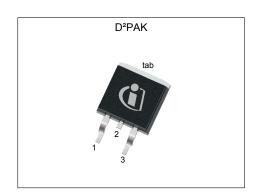

- 175°C operating temperature
 Pb-free lead plating; RoHS compliant
 Halogen-free according to IEC61249-2-21
- MSL 1 classified according to J-STD-020
- 100% avalanche tested

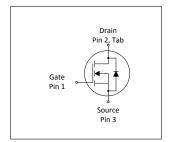

Fully qualified according to JEDEC for Industrial Applications

Table 1 **Key Performance Parameters**

Parameter	Value	Unit
$V_{ extsf{DS}}$	200	V
$R_{ extsf{DS(on)}, ext{max}}$	6.8	mΩ
I _D	134	A
Qoss	232	nC
Q _G	73	nC
Qrr	391	nC

2 Thermal characteristics

Table 3 Thermal characteristics

Dovemeter	Cumbal	Values			Unit	Note / Took Condition
Parameter	Symbol	Min.	Тур.	Max.	Unit	Note / Test Condition
Thermal resistance, junction - case	R _{thJC}	-	0.31	0.5	°C/W	-
Thermal resistance, junction - ambient, 6 cm² cooling area²)		-	-	40	°C/W	-
Thermal resistance, junction - ambient, minimal footprint	R _{thJA}	-	-	62	°C/W	-

¹⁾ Rating refers to the product only with datasheet specified absolute maximum values, maintaining case temperature as specified. For other case temperatures please refer to Diagram 2. De-rating will be required based on the actual environmental conditions. $^{2)}$ Device on 40 mm x 1.5 mm epoxy PCB FR4 with 6 cm 2 (one layer, 70 μ m thick) copper area for drain

connection. PCB is vertical in still air.

3) See Diagram 3 for more detailed information

Legal Disclaimer

The information given in this document shall in no event be regarded as a guarantee of conditions or characteristics ("Beschaffenheitsgarantie").

With respect to any examples, hints or any typical values stated herein and/or any information regarding the application of the product, Infineon Technologies hereby disclaims any and all warranties and liabilities of any kind, including without limitation warranties of non-infringement of intellectual property rights of any third party.

In addition, any information given in this document is subject to customer's compliance with its obligations stated in this document and any applicable legal requirements, norms and standards concerning customer's products and any use of the product of Infineon Technologies in customer's applications.

The data contained in this document is exclusively intended for technically trained staff. It is the responsibility of customer's technical departments to evaluate the suitability of the product for the intended application and the completeness of the product information given in this document with respect to such application.

Information

For further information on technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies Office (www.infineon.com).

Warnings

Due to technical requirements, components may contain dangerous substances. For information on the types in question, please contact the nearest Infineon Technologies Office.

The Infineon Technologies component described in this Data Sheet may be used in life-support devices or systems and/or automotive, aviation and aerospace applications or systems only with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support, automotive, aviation and aerospace device or system or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body or to support and/or maintain and sustain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.
